Showing of
The 1921 Fall
Coats &
Dresses

Wed. & Thurs.
Sept. 28 & 29

The Woman of Today has been educated to the point where she demands "good clothes" at moderate prices. Experience has shown that cheap shoddy garments will

not wear for long, will not keep their shape, and are generally unsatisfactory.

Therefore when making your selection for this Fall you should closely examine the quality of the material and workmanship.

It is true economy to buy "Good Clothes."

We Beg to Announce

First showing of Suits, Coats and Dresses for Fall—the very latest styles and finest of materials, superbly tailored—at very moderate prices.

You are cordially invited to attend.

EDUCATIONAL ASSOCIATION ORGANIZED

A very enthusiastic meeting of citizens was held in the Union hall on Monday night, when the question of accommodating the University of Alberta Department of Extension lectures was considered. P. M. Christophers, M.P.P., addressed the meeting, stating that he had approached the minister of public works on the subject of securing a course of lectures for Blairmore for the winter months, and that he had been assured by Mr. Ross that the matter would be taken up with the minister of education, Hon. Perrin Baker, and that the lectures would be forthcoming, all required from the local committee being that they provide a hall and look after local expenses such as advertising, etc. Mr. Christophers suggested the organization of a local educational, or literary association, that could handle the matter, as well as assist in various ways the educational programme of our community or district.

Following some discussion on the matter, it was on motion unanimously decided to act upon the suggestion of our M.P. and to organize what will be known as the Blairmore Educational Association.

The position of honorary chairman was offered Mr. Christophers in consideration of his efforts towards bettering our educational facilities, but Mr. Christophers declined to accept any honorary position. Mr. Allan Hamilton, member of the local school board, was unanimously elected chairman of the new organization and Mr. A. J. Kelly, secretary-treasurer. Committee comprises Mr. L. Dutil, chairman of school board; Mr. D. M. J. Conway, principal; Rev. Father Murphy, Rev. W. T. Young and Rev. W. M. Walker.

On motion it was decided that a membership fee of \$1.00 per annum be collected, and over twenty names were immediately enrolled. At this juncture, E. Picariello, a member of the local town council, came forward with the substantial sum of \$50, stating his pleasure at the formation of such a worthy organization and that if more funds were required to call upon him. A vote of thanks was accorded Mr. Picariello for his liberality.

This new organization marks a step in the right direction and one which should receive the support of every citizen of our town. It is a straight community movement and one which will result in great benefit to our community at large. One of the objects will be the introduction of lectures that will be both profitable and entertaining, the establishment of a public library under proper control, and the bringing from time to time before the proper authorities matters pertaining to the betterment of local conditions.

Mr. Christophers is to be commended upon his efforts in this connection.

A boy named Furlong, ten years of age, resident of the west coast of Newfoundland, has been sentenced to serve three months in the penitentiary for breaking into and robbing a bank. He has been, before the magistrate on many other charges and one of his recent specialties has been the burning of barns, hay racks, boats, etc.

EVERY PROSPECT OF CLOSED-IN RINK

A meeting was held at the Cosmo hotel on Tuesday night to discuss the rink problem. Plans and specifications were submitted to the meeting for a combined skating and curling rink to cost in the neighborhood of \$12,000 to \$15,000, and a site proposed by the West Canadian Collieries was considered favorably. The site is south of the track just west of the coal company's Greenhill spur and seems admirable. The election of officers and board of directors is held over till the amount of money that can be raised is decided. There is little doubt but that Blairmore will have a closed-in rink the coming season that will be second to none in the province in dimensions, containing, besides the full standard sheet of hockey ice, three sheets of curling ice, waiting rooms for ladies and gents and gallery reservations. Stock is to be sold at \$25 per share, one third payable at time of purchase, one third in thirty days and one third in sixty days.

GREATER PORTION OF "HILL 60" DESTROYED BY FIRE

At an early hour on Tuesday morning, fire from an unknown cause broke out in one of the cottages on what is known locally as "Hill 60." Wafted by a high west wind, two of the cottages, with several outhouses, were soon reduced to ashes with all their contents.

The houses have not been occupied for the past two months or more, the inhabitants having been driven therefrom as undesirable by the police.

We understand that the buildings were owned by "Billy The Jap," and were covered by insurance.

THE REAL NOVELTY OF THE SEASON AT ORPHEUM

For today, tomorrow and Saturday there is being shown at the Orpheum the pinnacle of motion picture entertainment, when Chief White Elk appears in person with his all-Indian masterpiece "Before The White Men Came."

The saying that there is nothing new beneath the sun is not true so far as moving pictures are concerned, for something distinctively new will be seen by those who witness this combination performance.

You will see a powerful drama, with as thrilling a plot as ever a motion picture, audience witnessed, but hero, heroine and villains are all Indians.

The performance will be opened and closed by Chief White Elk, a noted Indian tenor, lecturer, war hero and movie star, who will take you from the beginning of Indian history to the point where his picture takes up who in his majestic way lays his plot before you in a manner that any child can follow the photoplay. You will see the only motion picture ever attempted, where each character is interpreted by an Indian. At the conclusion Chief White Elk will again appear and conduct you from where the story in the picture has left you right up to the present day, after which he will utilize his well-cultured silvery baritone voice in rendering several late and popular ballads and by special request will sing "Le Mariellaise" in French.

The Chief has a treat in store for Friday night, when he will try to pick the most charming lady from those in the audience and present her with some handsome token he will have selected.

On Saturday the kiddies' hearts are going to thump with joy, when at the matinee he will conduct an interesting, educational and amusing contest and give lots of nice prizes to the ones giving the nearest correct answer pertaining to the life of the Indian. Special arrangements have been made by Mr. James E. Finch, the advance representative, for especially low transportation rates on all stage lines and has also arranged for several Tally-Ho's to leave from Coleman, Bellevue and Hillcrest and everyone should avail themselves of this excellent opportunity to witness a really wonderful performance.

Up the Money!

Oh, Money!
 Money!

BY
 ELEANOR H. PORTER

Printed by Special Arrange-
 ments with The Allen,
 Toronto, Ont.

I don't think Mellicent's real heart is affected in the least—she's only eighteen, remember—but her pride is. And her mother—Mrs. Jane—is thoroughly angry as well as mortified. She says Mellicent is every whit as good as those Pennocks, and that the woman who would let a paltry thing like money stand in the way of her son's affections is a pretty small specimen. For her part, she never did have any use for rich folks, anyway, and she's proud and glad that she's poor! I'm afraid Mrs. Jane was very angry when she said that. However, so much for her—and she may change her opinion one of these days.

My private suspicion is that young Pennock is already repentant, and is pulling hard at his mother's leading-strings. For I was with him most of the day when we met the lad face to face on the street. Mellicent sniled and nodded casually, but Pennock—he turned all colors of the rainbow, with terror, pleading, apology, and assumed indifference all chasing each other across his face. Dear, dear, but he was a sight!

There is, too, another feature in the case. It seems that a new family by the name of Gaylord have come to town and opened up the old Gaylord mansion. Gaylord is a son of old Peter Gaylord, and is a millionaire. They are making quite a splash in the way of balls and invited servants and motor cars, and the town is agog with it. There are young people, in the family, and especially there is a girl, Miss Petri, whom, report says, the Pennocks have selected as being a suitable mate for Carl. At all events, the Pennock and the Gay-

lor families are in the forefront of innumerable social affairs in most of which Mellicent is left out. So now you have it—the whole story. And next month, come to Mellicent's father one hundred thousand dollars. Do you wonder I say the plot thickens?

As for myself—you should see me! I eat whatever I like. (The man who says health begins to eat now is a knackered down—and I've got the strength to do it, too!) I can walk miles and not know it. I've gained twenty pounds, and I'm having the time of my life. I'm even enjoying being a gourmet—a little. I've about exhausted the resources of Hillerton, and have begun to make trips to the neighboring towns. I can even spend an afternoon in an old cemetery copying dates from moss-grown gravestones, and not entirely lose my appetite for dinner—I mean, supper. I was even congratulating myself that I was really quite a gourmet when the other day I met the real thing. Heavens, Ned, that man had fourteen thousand four hundred and seventy-two dollars in his tongue's end, and he said them all over to me. He knows the name of every Blake the way a Blackbird knows the year one. How many children they had (and they had some families then, let me tell you), and when they all died, and why. I met him one morning in a cemetery. I was hunting for a certain stone and I asked him a question. Heavens! It was like setting a match to one of those Fourth-of-July flower-pot sky-rocket affairs. That question was the match that set him going, and thereafter he was a pushing geyser of names and dates. I never heard anything like it. He began at the Blaisdells, but skipped almost at once to the Blacks—there were a lot of them near us. In five minutes he had me dumb from sheer stupefaction. In ten minutes he had made a century run, and by noon he had got to the Crusades. We went through the Dark Ages very appropriately, waiting for an open tomb for a thunderstorm to pass. We had got to the year one when I had to leave to drive back to Hillerton. I've invited him to come to see Father

Duff. I thought I'd like to have them meet. He knows a lot about the Duffs—that Blake married one—way back somewhere. I'd like to hear him and Father Duff talk—or, rather, I'd like to hear him try to talk to Father Duff. Did I ever write you Father Duff's opinion of genealogists? I believe I did.

I'm not seeing so much of Father Duff these days. Now that it's grown a little cooler he spends most of his time in his favorite chair before the cookstove in the kitchen.

"Jove, what a letter this is! It must be shipped by freight and read in sections. But I wanted you to know how things are here. You can appreciate it the more—when you come."

You're not forgetting, of course, that it's on the first day of November that Mr. Stanley G. Fulton's envelope of instructions to be opened.

As ever yours,
 John Smith.

CHAPTER IX. "Dear Cousin Stanley"

It was very early in November that Mr. Smith, coming home one afternoon, was looking almost as if something very extraordinary had happened.

My private suspicion was gathered Mr. Frank Blaisdell, his wife, Jane, and their daughter, Mellicent, Mellicent's cheeks were pink, and her eyes were bright, and she was looking at Mr. Frank with still in his white work-coat, which he wore behind the back before her. He held an open letter in his hand.

"What an ecstatic cry from Mellicent that came first to Mr. Smith's ears."

"Oh, Mr. Smith, Mr. Smith, you can't guess what's happened. You couldn't guess in a million years!"

"No. Something nice, I hope." Mr. Smith was looking almost as if he were about to cry.

"Nice—nice!" Mellicent clasped her hands before her. "Why, Mr. Smith, we are going to have a hundred thousand dollars!"

"Mellicent, I wouldn't talk of it—yet," interferred her mother sharply. "Don't mother it, no secret. I can't be kept secret."

"Of course not—if it's true. But it isn't true," retorted the woman, with excited emphasis. "No man in his senses would do such a thing."

"Er—ah—what?" stammered Mr. Smith, looking suddenly a little less happy.

"Leave a hundred thousand dollars apart for three distant relations he never saw."

"Of course not—if it's true. But it isn't true," retorted the woman, with excited emphasis. "No man in his senses would do such a thing."

"Er—ah—what?" stammered Mr. Smith, looking suddenly a little less happy.

"Leave a hundred thousand dollars apart for three distant relations he never saw."

"Well, what do you think of it?" demanded Mr. Frank Blaisdell, his arms akimbo.

"Why, it's fine, of course. I congratulate you," cried Mr. Smith, hugging back the letter.

"Then it's all straight, you think?" "Most assuredly!" exploded the man. "But he'll come back—see if he don't!" Mrs. Jane's voice was still positive.

"What if he does? You'll still have your hundred thousand," smiled Mr. Smith.

"He won't take it back!"

"Of course not! I doubt if he could, if he wanted to."

"And we're really going to have a whole hundred thousand dollars," breathed Mellicent.

"I reckon you are—less the inheritance tax, perhaps."

"What's that? What do you mean?" demanded Mrs. Jane. "Do you mean we've got to pay because we've got that money?"

"Why, yes, I suppose so. Isn't there an inheritance tax in this State?"

"How much does it cost?" Mrs. Jane's lips were at their most economical pucker. "Do we have to pay a great deal? Isn't there any way to save doing that?"

"No, there isn't," put in her husband crisply. "And I guess we can pay the inheritance tax with a hundred thousand to pay it out of. We're going to spend some of this money, Jane."

The telephone bell in the hall jangled its peremptory summons, and Mr. Frank answered it. In a minute he returned, a new excitement on his face.

"It's Hattie. She's crazy, of course. She's coming right over."

"Oh, yes! And she's got it, too. Haven't they?" remembered Mellicent. "And Aunt Flora, and—"

"She's coming right over," said Mrs. Jane. "But why? almost wept Mellicent. Her mother's sudden sympathy was a poor Maggie! How she is left out—"

"We can give her some of ours—mother—we can give her some of ours," urged the girl.

"It isn't ours to give—yet," remarked her mother, a bit coldly.

"But, mother, you will do it," implored Mellicent. "You've always said you would if you had it to give."

"And I say it again, Mellicent, I shall never see her suffer, you may be sure—if I have the money to relieve her. But—"

"She stepped abruptly at the sound of an excited voice down the hall before her. "Why, Mr. Smith, coming in through the kitchen, was hurrying toward them."

"Mellicent—where are you?"

"Is anybody here? Mercy! she panted, as she reached the room and sank into a chair. "Told you I never heard anything like it in all your life!"

"You had one, too, didn't you?" she cried, her eyes falling on the letter in her brother's hand. "But it isn't true, of course!"

"Miss Flora wore no head-covering. She wore one glove (violet side suit) and was carrying the other one. Her dress, evidently donated last year to the street, was unceremoniously showing the topmost button without a buttonhole."

"Mr. Smith says it's true," triumphed Mellicent.

"How does he know? Who told him it was true?" demanded Miss Flora.

"So was accusing was the look in her eyes that Mr. Smith, actually blinking a few times, was unceremoniously showing the topmost button without a buttonhole."

"Mr. Smith says it's true," triumphed Mellicent.

Foch Warns Against Germany

Tells Veterans France Cannot Yet Sleep Soundly.

Marshal Foch, in a recent speech to the Veterans at Melun, said: "Always beside us are the vanquished who are not yet dead. I ask you not to let them get out of your sight. Be assured that they are always alive and have not abandoned their idea of revenge."

"They will only respect us as long as we are strong. I ask you to absorb the idea that France is unable to sleep soundly without risking a terrible awakening."

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness—arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Seven Seas Fame Came Unsought

Separate Continent Surrounds Each According to Hindu Mythology.

The "Seven Seas" exist in Hindu mythology, according to the Jura-na the earth is circular and flat, like the flower of a water lily. Its circumference is 4 billion miles. In the center is Mount Sumeru. On this mountain are three peaks formed of gold, pearls and precious stones, where the deities reside. At its base are three mountains, on each of which grows a tree 8,000 miles high. The country furthest from these mountains is bounded by the salt sea. Beyond this sea there are six others—of sugar cane juice, of spirituous liquors, of clarified butter, or curds, of milk and nectar. Each sea is surrounded by a separate continent.

The patriotic man is loyal to his country and to the community in which he lives. If he is consistent he will give first preference to Canadian-made goods when making purchases. He will also stand loyally by his local dealer.

Warning! Take no chances with substitutes for genuine "Bayer Tablets of Aspirin." Unless you see the name "Bayer" on package or on tablets you are not getting Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoacetic-acid ester of Salicylic Acid.

The Tax That Kills

Taxes in Great Britain are so high that in certain cases they cannot be collected. The householders have hardly managed to pay his 14 1/2 per cent. income tax that along comes the local collector and demands another big tribute from his flabby purse.

Consequently large numbers are refusing official demands with the blunt statement that they cannot pay. In Bradford, Leeds, Sheffield, Halifax, and parts of London the local authorities are at their wits' end to know how to meet the municipal expenses.

All of which shows that taxation can grow and so further, the tax revenue comes from a man's industrial activities. If the toll levied upon these activities becomes too great they languish and die, and this golden stream is dried up. As the farmer must, after part of his crop for next season's seed, so the manufacturer pays to the people enough to go on with national production.

England has had similar experiences before, notably in the dear days following the Napoleonic wars, when in certain places taxes could not be paid. In the Southern States of America in reconstruction times as earnings were so high that many planters were forced to sell part of their plantations to meet the demands of the state governments. Under the Roman Empire enormous taxes exacted one of the most fertile causes of decay and final downfall.

It is evident that English taxation has passed the safety point; taxation reductions must come at once otherwise the nation will pay the penalty with depleted activities and a lagging industry. It is best to avoid the tax-kills.

A BUILDING BOOM AT HILLCREST

The Hamlet of Hillcrest, one of the most progressive communities in the Crow's Nest Pass, is just now experiencing a building boom, second only to that found at Blairmore, and the "rat-tat-tat" of the joiner's hammer can be heard from the break of dawn to bed-time at night. Several large business blocks are going up, as well as a large number of neatly appointed residences, which in addition to the large school now well under way tends to fill all with real optimism.

Among the business blocks we notice the Joseph block, the Janostock block, the Union Bank block, the Little block, the Whiller block, and goodness knows how many other blocks.

NEW POSTAL RATES

We have been advised of new postal rates, becoming effective October 1st, 1921, as follows:

To England and places in the Empire, 4 cents for first ounce and 3 cents for each additional ounce.

To foreign countries, except United States and Mexico, 10 cents for first ounce and 5 cents each additional ounce. Postcards 6 cents each.

Commercial papers, outside Canada, 10 cents not exceeding ten ounces, 2 cents each additional ounce. Acknowledgment of receipts, 10 cents, if forwarded afterwards 20 cents.

Insurance of Parcels—3 cents up to value of \$5; 6 cents up to \$25; 12 cents up to \$50; 30 cents up to \$100.

HILLCREST TO HAVE NEW MODERN THEATRE

The contract has been let by Mr. W. Cole, proprietor of the Rex theatre at Bellevue, to a Calgary building firm, for the erection of a commodious picture theatre at Hillcrest. The plans call for a building of similar dimensions to the Rex, with seating accommodation for upwards of four hundred people. The new structure will comply with the government's requirements respecting public safeguarding and will fill a long-felt want in that community.

Rebekahs Will Attend Divine Service

Members of the local Rebekah Lodge of the I.O.O.F. will attend divine service at the Union church on Sunday evening next at 7:30. They will assemble at the hall about 6:30, where after preliminary exercises they will in a body parade to the church on State Street. A full attendance is requested, and visiting Oddfellows and Rebekahs are invited. Special seating accommodation is being arranged and special music will be rendered by the choir.

Judging by the way in which the roads in the province have been kept strewn up this year, one would feel that the government was deeply interested in the welfare of railway and aeroplane transportation.

Mrs. Newbridge—"Our cook says those eggs you sent yesterday were quite old." Grover—"Very sorry, ma'am. They were the best we could get. You see all the young chickens were killed off for the holiday trade so the old hens are the only ones left to do the laying." Mrs. Newbridge—"Oh, to be sure! I hadn't thought of that."

A deputation of members of Bellevue and Blairmore Rebekah lodges paid a visit to the Rebekahs at Pincher Creek on Tuesday of last week. We understand that some of the party lost their way returning, and the wee-late hours of Wednesday morning found them meandering in the neighborhood of Beaver Mines with practically no place to go. In all probability they left the real guide at home.

One of our local court dens is so up-to-date that it is necessary to go to a next door neighbor's to borrow a Bible—and then it's amusing to watch how intelligently (?) a police officer will kiss the book. Reminds us of a case in British Columbia some time ago, where the court at opening was informed that the pup had chewed up and swallowed the good book, whereupon the judge demanded that the officer kiss the pup.

American Consular Service

In addition to the information herefore required, consular invoices must now state:

(1) The date of the purchase now required for merchandise acquired by purchase to be determined by the date of the acceptance of the order by the foreign shipper.

(2) Specifying whether the kind of currency is gold, paper or silver.

(3) The marks, numbers, or symbols by which the merchandise is sold or offered for sale by the manufacturer or seller in the foreign market.

Consular invoices presented for entry on and after August 1, 1921 unless containing the above information will be rejected and a bond taken to produce a corrected invoice.

Farmers' Strike Threatened in Australia

The New South Wales farmers threaten to go on strike. At a conference of the Farmers and Settlers' Union in Sydney recently the president said that so great were becoming the demands of labor in the state that the farmers would have to adopt labor tactics. He advocated a strike as a protest against the forty-four hour week and the fixing of meat prices. The conference enthusiastically adopted the idea and it is quite possible that New South Wales in a short time may have the first farmers' strike on record.

The marriage of J. P. Beddome, former principal of the Pincher Creek public school, but now holding a similar position at Fernie, B. C., to Miss McPherson, formerly of the Medicine Hat teaching staff, took place at Vancouver on September 1st. Mr. and Mrs. Beddome have taken up residence at Fernie.

Police atrocities are not all confined to the fair Province of Alberta, for we read just last week of a case that happened in Nova Scotia, where a man was snatched from an auto in which he was peacefully taking his family for an outing, was carried about two miles and lodged in a cooler and there accused of having passed a standing tram car. It was a case of mistaken identity, but action is being taken for false arrest and imprisonment and the officer in question may be subjected to a dressing down.

From a recent issue of the Halifax Herald we clip the following: "Rev. P. J. N. Cosman, in company with his sisters, Mrs. Silas Parker and Mrs. H. H. Hamilton, motored to Annapolis on Friday. His niece, Miss May Parker, accompanied them as far as Digby, where she took passage for St. John enroute to Sackville to resume her position as teacher of stenography in Mount Allison university. Rev. Thomas LeBlanc, who has been visiting Rev. Donald Comeau at St. Joseph's, Glebe, also accompanied them as far as Digby, where he took passage for his home in Amherst."

Bellevue & District Horticultural & Industrial Club

Prizes 1921 Exhibition

We regret that space would not permit our publishing the list of prizes awarded in the recent annual exhibition of the Bellevue and District Horticultural and Industrial Society, held in the school house at Bellevue on Labor Day, until now.

The days programme was led off by a grand auto procession in the forenoon, headed by a full band. Prizes in this connection were awarded. C. Johnson 1st and H. Peters 2nd. Field sports were carried out successfully and good prizes were awarded in all events.

The attendance at the horticultural show was the biggest in the history of the Society, fully one thousand and paying entrance fees. There were over two thousand exhibits and competition was keen. Last year the show occupied three rooms of the public school building; this year five rooms were packed to overflowing with exhibits. Some of the best vegetables ever shown in Western Canada were among the prize winners, including corn heads fully eleven inches in length and two and a half inches in diameter, celery over two feet in length, etc. The judges were Mr. Oxley, of Vernon, B. C. formerly of Calgary, while Mrs. Oxley and Mrs. J. M. Carter, of Blairmore, were judges respectively of the culinary, flower and fancy work exhibits. Following is an complete list of prizes awarded as we have been able to secure, and we would gladly correct any error in this list that may be brought to our notice:

Lizzie

(U. P. in Calgary Herald)

Tin Lizzie may be old, sir, And her innards streaked with dust, But, by gad, when on the road, sir, She'll get you there, or bust.

Funny about old tin Lizzie, isn't it? Above all the mad contraptions devised by the modern man, old tin Lizzie takes the "bump."

It doesn't matter at what stage of the game of life Lizzie has arrived. She is always "there" and right up on her toes to do good to those who hate her, and to love those good and kind to her.

Tin Lizzie is no beauty—she doesn't think she is, neither does she want to be. She is very willing to plod along under the best she can for her own folks, and to assist her detractors out of a hole whenever they get into one—which is quite frequent.

White socks and tennis boots aristocrats wear at Lizzie and jostle her on the road with lugging tools or lugging tooters, but Lizzie, democratic to her sporting combustion exhaust, politely retards her progress and permits them free access to the road ahead of her, knowing or guessing a mere "so long," because, sooner or later they will be calling on Lizzie to rope them out of a mud-hole. That's Lizzie—a good-natured, contented old cuss—a neglected old reliable—the product of some unknown dreamer's dream.—Calgary Herald.

On a Scale

"Yes," said the old man to his visitor, "I am proud of my girls and would like to see them comfortably married, and as I have made a little money they will not go penniless to their husbands."

"There is Mary, 35 years old, and a really good girl. I shall give her \$1,000 when she marries. Then comes Bet, who won't see 35 again. I shall give her \$3,000. And the man who takes Elizabeth is 40, will have \$5,000 with her."

The young man reflected a moment and then asked: "You haven't one about fifty, have you?"

The Crow

The crow is worth watching. He is often 20 or 30 years old, and knows the neighborhood well. So the saying "Wise old crow," has a meaning, and it means he is tactful, resourceful, and changes his ways to suit circumstances.

In the corn belt, he is adept at following the row "very early in the morning." When he comes north beyond the corn, he is just as adept at finding birds' nests, hedgepigs, and chickens very early in the morning, and after breakfast he is quite sedate and well behaved—even feeding on outworn and grasshoppers. If we all get up as early as the crow and were just as alert, he would respect our rights at all times. He just requires watching, and to be kept in his place.

HILLCREST HAPPENINGS

We frequently hear criticism of the manner in which our mails are handled.

Several from Hillcrest took part in the Rehekah anniversary at Bellevue on Sunday night last.

Mr. and Mrs. Harris, who left here last spring for the Old Country are expected back very shortly.

Miss E. Fox is expected to arrive some time this week from an extended visit in the Old Country.

Jack Whittier is busy these days. Besides putting finishing touches to the new drug store, he has two other building contracts.

Mr. and Mrs. and Miss Nellie Foyle were visitors to Lundbreck, visiting the farmers' uncle and aunt, Mr. and Mrs. Charles Simister, late general manager of the Crows' Nest Pass Coal Co.

The remarks a few weeks ago about some of the milk-dealers seem to have done some good, as two have been getting quotations from business firms on sanitary delivery bottles.

Hillcrest has just lost an old landmark that won't cause any shedding of tears, namely the tearing down of the two big trees at the entrance to the village. Without a doubt, they were a danger to motorists, especially at night.

Jack O'Neill, of Blairmore, is believed to be shuffling off all the torn or dilapidated dollar bills he can get in Hillcrest. For this he should be severely thrashed. No doubt his line could be better occupied assisting his sickle, Golf Champion Conway in manipulating the fourwheeler and help to keep the rear light in action.

The flower and vegetable show, held in the curling rink and school house on September the 10th was an unqualified success. The attendance was good and would have been better if the weather had not been so cold, preventing many outsiders from coming in. It's a pity the show could not be held a little earlier in the season, when the flowers and vegetables show to better advantage.

Hillcrest is just now experiencing the biggest building boom in its history. A new drug store, an up-to-date picture house (Patty Arbuckle barred), a new restaurant for Steinhilber, Joseph's dry goods store, Dr. Lillie's dental parlors, an up-to-date laundry, Dragon's dry goods store and Jamotak's general store. G. Croickbank also intends to open up a hardware department which will necessitate some changes or enlargement of his premises. Hillcrest is fast coming into its own at last. Our dear ladies, after they are all finished, will be able to have an afternoon of shopping. This will also mean sidewalks, but we must by all means

NOTICE

To H. J. BENSON late of the Town of Blairmore, Alberta.

In The District Court of The District of Calgary

TAKE NOTICE that D. S. Perrin and Co., Ltd. have commenced an action against you, Eng Yick, and the King George Cafe,

(a) To recover the sum of \$119.77 the price of goods sold and delivered at your request on or about November 11, 1920.

(b) For a declaration of this Honourable Court declaring void the sale and transfer of stock of goods in bulk to your co-defendant, Eng Yick. YOU ARE REQUIRED by the 10th day of October 1921, to enter a demand of notice at this Court to the Statement of Claim or to file a Statement of Defence.

In default of your so doing the Plaintiff may enter judgment and take execution in your absence.

Bellevue Band**Reorganized**

A well-attended and enthusiastic meeting was held in the school house at Bellevue on Sunday afternoon last, which had for its purpose the reorganizing of the Bellevue band, which old residents will remember was the final musical organization in The Pass prior to the war. It was fully decided to form the band again. George Goodwin was elected conductor, and Ed. Royce, of Hillcrest, secretary-treasurer. It was unfortunate that whilst the boys were overseas, the fire at the Eagles' hall destroyed several of the instruments, but was and means will be found to secure the instruments required. As there is the foundation for a good band here now, it is not going to be the policy of the band-committee to import any players, but to train any youngster that comes to take an instrument, there by rearing our own. The band has already fulfilled two engagements, one at the annual flower show at Bellevue and leading the Rehekah procession to church on Sunday last. Practices will be held in the new school house, which the trustees have very generously placed at the band's disposal. The public and anyone interested in music are cordially invited to these practices. See notices.

The Mistake Of Hoarding

Canada, like all countries of the first class, has journals and publications whose business it is to reflect and promote the special and particular interests of certain classes and institutions. There are trade journals devoted to the interests of almost every conceivable line; financial papers dealing with banking, insurance, loan, trust and mortgage corporations; papers promoting the welfare of the vast and all-important industry of agriculture and stock-raising; labor publications championing the cause and recording the activities of organized labor; purely political monthlies maintained to advance the cause of this or that party or organization or political principle; journals and magazines maintained by churches and philanthropic and social service organizations; and straight out and newspapers.

All these many publications are legitimate, praiseworthy and play an important and proper part in the life of a country like Canada providing they are straightforward and honest. The paper in which this article appears is, however, first, last and always a home paper devoted to recording the news, activities and upholding the interests of the people in the local community in which it circulates. It does not seek to serve any particular group, but the whole people of its own community and thereby help to advance the welfare of all. It does not profess to attempt to right the wrongs of the world nor to solve the gigantic problems of the present day, except in so far as the encouragement of sound, commonsense action by the ordinary everyday citizen helps in these directions. It is for this reason that so many of the articles appearing in this column are addressed to the individual occupying a small and perhaps inconspicuous place in the national life, but nevertheless one of the really great and influential factors making for national stability and progress—in fact, the basic, the greatest factor of all.

In common with all countries today, Canada is suffering, although not to the same extent as most lands, from a business depression resulting in tight money—a slackening in industry, high freight rates and high prices generally for commodities and a serious lack of employment for thousands willing and anxious to work. Governments, great corporations, captains of finance and industry, all have a tremendous responsibility during such a time as the present. Everybody recognizes this and the average citizen probably expects too much of them and demands that the impossible be done in an effort to right matters. But what is not so well recognized and appreciated is that each individual citizen can in a small way do much to improve conditions, and if all individuals, or a large majority of them, discharged their small duties the effect in the aggregate would be greater than anything Governments or corporations can do, and would make action possible by them which they are now powerless to take.

Take, for example, one present adverse condition—tight money. Hundreds of millions are required for national purposes and scores of millions more for financing the purchase and marketing of this year's crops, not to speak of the enormous sums necessary to keep the wheels of industry revolving in the present depressed state of business in order to prevent an actual shutdown in many directions. Can the average man do anything to relieve the money market? Of course he can, if he only will, but fear, selfishness and ignorance so frequently prevents him from doing so.

It is well, therefore, that every man should appreciate certain simple truths which are real economic facts. The business of the world is carried on on credit. In order that credit may be established and provided it is necessary that there be something substantial back of it. For this reason Governments and all banks and financial institutions maintain reserves in gold or liquid securities. It is a well known fact that a dollar deposited in a Bank serves as a source of credit for many times that amount. It is stated on reputable authority that a dollar deposited in a Bank provided anywhere from five to ten dollars of credit for the carrying on of business.

Yet there are many people who through fear, selfishness or ignorance, keep money in varying amounts in the house from year's end to year's end. They not only run the risk of loss through theft or fire, and lose by interest which their money on deposit would earn for them, but through the mistake of hoarding they are depriving the community of the incalculable benefits of the credit which their money placed in a recognized Bank would provide for the benefit of all, themselves included, because in our complex twentieth century civilization no man can live to himself alone and general adverse conditions affect him as well as all others.

A writer in an Ohio farm journal estimates that if placed on deposit in Banks, would serve as a source of credit for from \$25,000,000 to \$50,000,000 and go a long way towards relieving the present critical situation. This writer points out that, aside from the protection afforded against loss by theft or fire, the biggest reason why all surplus money should find its way into the Banks as promptly as possible is that the Banks are the credit factories, and the raw material of the credit which the manufacturer needs in hard cash, and it is hard cash which the country needs at the present time. Moral: Don't hoard your money but put it to work for yourself, your community and your country by placing it on deposit.

Valuable Specimens Found in Alberta

Rare Dinosaur Estimated to be 3,000,000 Years Old.

Discovery of a rare and valuable specimen of a carnivorous dinosaur, which became extinct, according to conservative estimates, 3,000,000 years ago was recently made by Dr. J. A. Allan, a member of the University of Alberta vertebrate paleontological field party, operating on Sand Creek, eight miles northeast of Patricia, Alta.

Much difficulty is being experienced in collecting the specimen, with a great many tons of rock to be removed. Only about half of the skeleton has been unearthed up to the present time. Work is being continued. The tail has not been located as yet. The skull is in a fine state of preservation and one lower jaw has been removed from the rocks. It is 34 inches long, armed with teeth about two or three inches in height. Many bones of the body have been removed and packed for shipment to the university. Dynamite has been used to remove the rock which was over the skeleton and the large sections have had to be hauled to the gravel levee, some 200 feet up over a narrow trail.

The carnivorous dinosaur was a

formidable beast, about 25 feet long and was a biped. It ran or walked upon the long powerful hind legs, while the fore legs were very short.

Plot To Overthrow Soviet Conspiracy Carried On Under Cloak Of Famille Reale

Revelations at Moscow following the arrest of members of the Russian family relief committee, are said to prove the committee was plotting to overthrow the Soviet Government under the cloak of carrying on relief work, says a despatch to the London Daily Herald from the Russian capital. An extraordinary investigation is said to have discovered letters showing the conspiracy was widespread. One of these is said to have outlined a scheme for reorganizing Russia under a supreme ruler with a federal duma regional, and parish dumas, and local governors.

Canadian Flour in Venezuela

Venezuelan bakers will use Canadian flour when the price drops to that quoted on American flour is stated in a communication issued by the Dominion Department of Trade and Commerce, and based upon a report from H. A. Chisholm, Canadian Trade Commissioner in Venezuela. The bakers of the South American Republic express the opinion that Canadian flour is of a very superior quality.

A CORDIAL INVITATION TO DISEASE

This is an apt description of Constipation. It's an unnatural condition to begin with—but it's dangerous because, if left in the hands of the system with poisons, brings on anaemia. You don't need a purgative; you don't need a cathartic; you need a system by a harsh gripping medicine—what you need is mild natural stimulant to the bowels. You just what you need in Dr. Hamilton's Pills which tone up the liver, restore the bowels to perfect action, and positively will constipation. You'll feel tip-top after regulating your system with Dr. Hamilton's Pills. Good for young and old—a real family medicine, 25c all dealers or The Catarrhinose Co., Montreal.

China Will Refuse Japan's Proposals

Claim That Award of Shantung Was Illegal.

China will refuse to entertain Japan's proposals relative to settlement of the Shantung controversy it is declared by a person in the confidence of the Chinese administration. She will have her action on the ground that the award was illegal and that Japan has no right to the privileges in Shantung which were conferred by concession upon Germany and which were turned over to Japan at the peace conference.

WHEN BABY IS ILL

When the baby is ill; when he cries a great deal and no amount of attention or petting makes him happy. But, Own Tablets will give him without delay. The Tablets are a mild but thorough laxative which regulate the bowels, sweeten the stomach and thus drive out constipation and indigestion; break up colds and simple fevers; and soothe teething—cavities. Concerning Mrs. Desire Hebble, Traill, Sask., writes: "I have used and liked my use of Own Tablets. I have found them of great benefit to my baby when he was suffering from constipation and I can strongly recommend them to other mothers." The Tablets are sold by all medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Wheat Via Panama

It is predicted that the movement of Canadian wheat to Europe via the Port of Vancouver and the Panama Canal will be at least forty cargoes during the winter season of 1921-22.

Burn the Future.

Every good citizen should know what forests mean to Canada, to his province, and to his very home; and that every fire that burns in the forest is a detriment to the progress of civilization. Every boy and girl should have instilled into their minds the untold damage that may result from carelessness with fire in the woods. In destroying the forests we are not only damaging the present, but are, literally burning up the future.

Rural Route No. 1, Macouche, Que. The Minard's Liniment People.

Sure—I feel that I should be doing a wrong if I neglected to write you. I have had four tumors growing on my head for years. I had them cut off by a surgeon about fifteen years ago, but they grew again till about three months ago I had one as large and shaped like a lady's thumb on the very place where my hair should be parted, and it was getting so embarrassing in public that it was a constant worry to me. About three months ago I got a bottle of your liniment for another purpose and saw on the label good for tumors, so I used it, and here it is, and I feel that I should mention the result that it has entirely removed the tumor, and were it not for the fact that they had been cut off fifteen years ago I should have been asked for this testimonial and you can use it as you see fit.

(Signed) FRED C. ROBINSON, P.S.—I am a farmer and intend using Minard's Liniment on my mare for a sore throat, and am hoping for some results.

Capitalizing The Home

BY LORETO C. LYNCH
An Acknowledged Expert in All Matters Pertaining to Household Management.

In a small town in the Middle West when the husband and father built a town home for the erstwhile family he decided it should be the best in town. The rooms were large. During the war, when every woman was sewing for the Red Cross, Mrs. Turner accommodated as many as one hundred when the rolled-back the doors and made one large room of the dining room and drawing room.

Then the day came when a lawyer announced to Widow Turner that the home for the husband and father was now, was all she had left. Mrs. Turner decided to capitalize it.

There were several organizations in that town, social, political and philanthropic. There was no town hall, no meeting place, and so it was necessary to meet at the homes of members.

Mrs. Turner offered to rent her larger parlor for an afternoon or an evening for fifteen dollars. This included light, heat and comfortable chairs, as well as the generally pleasant atmosphere.

The first club to avail itself of Mrs. Turner's large room was a ladies' card club. There were fifty women. The committee, when engaging the parlor, asked Mrs. Turner if she could provide some light refreshments for a stated sum. This was her beginning. She charged fifty cents apiece for home-made cake, some dairy sandwiches and a drink such as chocolate with whipped cream.

When the students of the graduating class in the local High School wanted to have a dance it took Mrs. Turner but a moment to take her rugs from the hardwood floor and remove excess furniture. The parents felt that these students were in excellent surroundings. Later a dancing teacher engaged the large room for her morning classes.

When a man's club engaged the quarters Mrs. Turner arranged ash trays and other little conveniences, and during the winter she served to one club of men the best Welsh rarebit they had ever tasted.

Science has afforded opportunity to capitalize her home. For instance, many girls who worked in town lived an hour's journey out in the country. When they wished to stay in town to go to the theatre many brought their car to the city for use in the morning. For a small fee they could use Mrs. Turner's home to make their evening toilet before going out.

So, if you are a woman suddenly thrown upon your own resources, try in every way to capitalize your home or your home-making abilities before you decide to cast your lot with the great army of folks who are specially trained for work "outside."

New Planes For London-Paris Service

Will Carry Passengers From Centre Of Cities.

Experiments with shortly he made with a view of organizing a Paris-London air service with amphibious machines which will be able to carry passengers from the centre of one city to the centre of the other.

Convenient points will be chosen in the Thames and the Seine where the machines will alight on the river. The machines will be so built that they can also, if necessary, land at aerodromes and other convenient points in case of engine trouble.

The advantage of this means of transportation will be to shorten considerably the time now necessary in order to travel by air. The aerodromes are far from the centre of the cities and much time is lost by automobile transport to starting points and from landing places. It will also be possible to reduce the price of the journey owing to this suppression of its automobile section.

Well Known Farmer Declares He Only Had Bare Fighting Chance

"When I began taking Tanlac it looked like I only had a bare fighting chance for life, but it put me on my feet feeling as fine as any man could want to feel," said William Padfield, well-known farmer living at Kipling, Sask.

"I was so emaciated that I only weighed 120 pounds when I started taking Tanlac, and was so weak I was almost in a state of collapse. I could not get any good out of the little I ate, as my stomach was in such an awful condition that even the lightest food soured and caused me misery."

"It was lucky for me that I took the advice of a friend who told me about Tanlac. It could not have done better if it had been made especially for my case, as it took hold of me right from the start and fixed me up so I could eat anything."

"Never in my life have I seen anything to equal the way I have gained in weight. I now weigh 185 pounds, have my strength back, and I can honestly say that I never felt better in my life or had more energy. Tanlac certainly did the work."

Tanlac is sold by leading druggists everywhere.

News To Many

United States Has No Organization For Harvest Help.

More than 30,000 farm hands came to the west from Toronto and the east to Manitoba and Saskatchewan to work a month at \$4 a day. They were clean-cut, intelligent young fellows, full of pep and ambition, and many of them will remain in the west as permanent developers. They were recruited by Dominion agencies in the east and all arrangements, including transport, were organized and managed by the government. This great movement of unskilled labor to meet the widespread, hurry-up demand of the harvest is in strong contrast to the hit or miss methods employed in the States.—Minneapolis News.

Health Unchanged

For 3,000 Years Conditions No Better In Spite Of Science Progress.

With all the world's scientific progress, health conditions today are neither better nor worse than they were 3,000 years ago, according to Dr. Robert Jaures, who has just published the results of an examination of thirty-four ancient mummies that were buried along the Nile.

Not only were there then existent diseases that are now attributed to microbes, but also there were malformations, Potts disease, rickets and flat feet, as well as corns and bunions. In some of the bodies, Dr. Jaures found distinct evidence of tubercular lesions in lungs, while microscopic examinations of hardened tissues revealed cirrhosis of the liver, abscesses and gall stones.

Not the least interesting discovery by Dr. Jaures was the fact that the ancient Egyptians were more sure-footed than the people of today, as was indicated by the fact that out of a thousand mummies examined, only one showed evidence of fracture of the foot or leg was found.

In ancient days crows were employed as letter-bearers.

League of Nations May Be Increased To Fifty Members

Geneva.—The membership of the League of Nations will be increased to 50, if the assembly adopts the recommendation of the political committee, which decided to approve the admission of Latvia and Estonia. The applications of Lithuania and Hungary were put over, the committee deciding to await M. Hymans' report on the efforts to settle the Vilna dispute before acting on Lithuania. Hungary's application will not come up again until later.

The political committee also decided to recommend to the Supreme Council the inclusion in the eventual peace treaties with Turkey of a clause safeguarding the interests of Armenia.

The preponderance of the British and French on the secretariat and the labor bureau is being severely criticized by the representatives of the smaller states.

Grain Exchange

Appoints New Head

Retiring President Says Producers Should Understand Marketing Methods.

Winnipeg.—C. H. Leaman was formally elected president of the Winnipeg Grain Exchange, succeeding Norman L. Leach, retired, at the annual meeting. J. B. Craig and Dr. Robert Magill, vice-president and secretary-treasurer, respectively, who were elected by acclamation along with Mr. Leaman at the nomination meeting were also installed in office.

A resume of the past year's work in the grain trade, with suggestions for the general improvement of the trade was the feature of the retiring president's address, which stated: "There is today a wider and keener interest in grain marketing methods and systems; there are many criticisms of these methods. They should be more clearly understood by the producer, the business and general community at large, and I submit to you the suggestion of co-operation with and education of your trade, your consumers and the general public toward that end."

Will Support Housing Scheme

Alberta Premier Says Province Willing to Give Help.

Edmonton.—Mayors Duggan, Edmonton, and Adams, of Calgary, met Premier Greenfield to discuss the question of the Alberta cities obtaining aid from the Dominion housing scheme for the purpose of providing relief for unemployed.

Premier Greenfield gave assurance that as soon as proper evidence was produced to the effect that there was a real demand for houses in the cities, then the province would support the scheme and give security for the loans obtained.

Five Irish Delegates Appointed To Conference

Dublin.—The Daily Eireann approved its "cabinet's" reply to Mr. Lloyd George's latest proposals and ratified the appointment of five delegates to a "possible conference" with representatives of Great Britain.

The appointments of plenipotentiaries approved were those of the following: Arthur Griffith, founder of the Sinn Fein and "foreign minister," chairman; Michael Collins, "finance minister," Robert C. Barton, who has been one of the leading figures in the preliminary negotiations; Eamon J. Duggan, Sinn Fein member of parliament; and Easing figure in the arrangement of the Irish treaty; George Gavan Duffy, who has acted as representative of the Sinn Fein abroad.

Nothing has leaked out as to whether the reply is acceptance or non-acceptance of the invitation to a conference, but the fact that five Irish plenipotentiaries have been appointed is taken as indicating confidence in continuance of the negotiations. Mr. Lloyd George is expected to remain in Scotland at least another three weeks.

Cattle Starve In Lower California

Rainfall Light For Three Years and Pasture Scarce.

Mexico City.—The economic situation in the southern districts of Lower California is described as intolerable by travelers recently returning from that region. Rainfall has been exceedingly light in that region, for the past three years and the scarcity of pasture has caused the death of thousands of heads of livestock, the main industry.

The inhabitants are said to be in desperate circumstances, which have been aggravated by a recent federal order prohibiting foreign vessels from transporting merchandise between Mexican ports. This order which was aimed to protect the national merchant marine has virtually isolated the region as only two Mexican vessels are engaged in coastwise trade there and their visits are at many weeks' intervals.

War Veteran Sells Medals For Food

Trying to Get to His Home in Winnipeg.

Toronto.—Unless some philanthropic organization comes to the rescue of John Francis Marten, veteran of the Great War and of a number of other European campaigns, who has reached Toronto from Montreal, travelling alone, he will have to walk to his home in Winnipeg. He has already been compelled to sell his five war medals for \$5 in order to eat. He is at present staying at the Salvation Army hotel.

Marten was taken from a London lodging house by a policeman and placed aboard the steamer Bellinbrook, which landed at Montreal recently.

Cattle Should Go To British Market

New Westminster, B.C.—"We must build up trade within the Empire," declared Hon. S. F. Tominer, Minister of Agriculture, at a recent gathering of farmers from the Fraser Valley. "There are 68,000 cattle ready today," he continued, "according to reports of our department, and every head should go to the British market." It was proposed to give more support to Experimental Farms and agricultural education generally, he said.

Trial Shipment Proves Failure

Alberta Government Lost On Shipment of Beef Cattle.

Edmonton, Alta.—The trial shipment of fat beef cattle that was sent to Scotland in June by the provincial department of agriculture, resulted in a net loss to the government. They show an average cost per head of \$303, with an average return of \$188.88. There were thirty-six head of export steers in the shipment. The animals were shipped to Glasgow and were there sold at the public market for immediate slaughter.

When the steers left Edmonton they stood at a cost to the government of \$168.17 per animal, and the transportation charges, Edmonton to Glasgow, were \$100.12 per animal. Added to this cost were the expenses of the attendant, bank charges and other overhead expenses, bringing the total cost per head to \$302.07. Records kept en route show that there was practically no shrinkage in any of the animals. The sales in the Glasgow markets showed that the smaller handweight steers of good type and breeding, ranging from 1,200 to 1,350 pounds, were most in demand, the heavier fat steers not meeting with ready sale for the summer trade.

Serious Fire In Refining Shop

Terrific Explosion Drenched Men With Flaming Oil.

Philadelphia.—Ten men were killed and more than a score injured, several of whom are expected to die, in the second serious fire to visit the big Point Breeze plant of the Atlantic Refining Company in a month. Three more men are reported missing and may have been burned to death beneath flaming tanks of petroleum.

The fire was preceded by a terrific explosion which drenched workmen with flaming oil before they could leap to safety, killing several instantly. Others employed further back from the tanks were sprayed with the searing petroleum and painfully injured. Prompt action by the company's organized rescue squads saved the death list from mounting higher, witnesses declared.

Northcliffe's Opinion on Disarmament Conference.

Melbourne, Australia.—Referring to the approaching disarmament conference at Washington, Lord Northcliffe, who now is touring Australia, said in a speech at a civic reception, it was unthinkable Australia and New Zealand should be totally unrepresented at a conference which might decide their fate. Nations would be represented at that conference which, as compared with Australia, were not interested in the Pacific, he added.

British Dirigible May Replace ZR-2

U.S. Government Wants to Obtain Former German Zeppelin.

London.—Reports that the United States and British Governments may arrange for the transfer of one of German Zeppelins remaining airships to United States ownership to replace the wrecked ZR-2, have received some credence in United States official circles here where it is stated the United States Government, some time prior to contracting for the ZR-2 considered the desirability of obtaining one of the former German Zeppelins for experimental and instructional purposes.

When these German air fighters were turned over to the allies, Italy, France and Britain received one each and America none. Great Britain's Zeppelin, the L-71 is the largest rigid airship in existence now that the ZR-2 is gone. Her cubic capacity is 2,430,000 feet or 380,000 feet less than the ZR-2. The length of the L-71 is 743 feet as against 695 feet for the ZR-2.

Chinese Canadian Trade Increases

Net Increase of 840 Per Cent. in Five Years.

Hamilton, Ont.—China and Canada have much in common, and their trade relationship is growing substantially every year, declared W. Y. Kwan, chairman of the Chinese Railway Commission to members of the Kinsmen's Club. He emphasized that in 1918, the last year in which statistics were available, China had imported and exported goods from and to Canada valued at more than \$17,000,000, which when compared with 1913 figures showed a net increase of 840 per cent.

Alberta Government Anxious To Develop More Coal Markets

U. S. Boats Cannot Unload Without Permit

Railways Will Control Movement of American Grain.

Montreal, Que.—In order to prevent the harbor of Montreal becoming choked with American grain, to the detriment of Canadian shippers, both the Canadian Pacific and Grand Trunk Railways have decided to control the movement by applying the permit system to American grain coming to Georgian Bay ports for transport to Montreal. In future, no boat can come from American lake ports to Port McNicol or Tiffin, Ont., without a permit to unload.

American grain has constituted about 40 per cent. of the total shipments from the port of Montreal this season of navigation. At the beginning of the season it was all Canadian, and at the present time is about 60 per cent. American and 40 per cent. Canadian. The proportion of Canadian grain, however, will be larger with the arrival of the new crop.

Italy Has Good Harvest

Crop Expected to Reach Pre-War Productiveness.

Rome.—Italy's harvest this year will reach its prewar productiveness, according to the government crop forecasts. The total harvest anticipated will reach 51,200,000 quintals (of about 2200 pounds each) comprising all kinds of grain.

The average pre-war crop was calculated at 48,000,000 quintals. During the war, production decreased to 38,000,000 quintals.

The present year's crop is also distinguished by the fact that it lacks but 6,000,000 in equalling the record grain crop of Italy, which was in 1913, when it reached nearly 58,000,000 quintals.

Disagree Over Wages.

St. Catherine's, Ont.—After ten hours' conference the contractors and union men engaged on the Welland Ship Canal have agreed to disagree on the question of wages and other points at issue and it is now up to the government to decide.

Edmonton.—Representing the mineral industry in the entire western provinces, 75 delegates were in attendance when the opening of the third annual western convention of the Canadian Institute of Mining and Metallurgy was called to order by the chairman, O. E. S. Whiteside, of Coleman. Mayor G. M. Duggan briefly addressed the visiting delegates, welcoming them to Edmonton on behalf of the city.

The Provincial Government was represented by Premier Greenfield, who spoke on the research work of the government in the matter of the mineral industry.

"The government is endeavoring to develop more markets for Alberta coal," declared Premier Greenfield, "but we have met with one difficulty and that is the grading of coal."

The Premier deplored the lack of uniformity in the grading of coal, and stated that it had proved a hindrance in the marketing of the product. "We are advertising, making demonstrations and continuing the research work," he said, "and I would like to suggest co-operation with the government as well as advise you that the uniform system of grading coal is a necessity."

Premier Greenfield gave an account of his trip into the north country and said he was deeply impressed and encouraged by his observations of conditions. The government test hole in the McMurray township where the mining of salt is being investigated by the government, was also mentioned by the premier. "The government is thoroughly aware of the importance of the mineral industries in the province," he said.

The approach of the winter season and its effect on the unemployment situation in the province was touched upon by Mr. Greenfield. "I am opposed to soup kitchens and that form of relief," he said, "and would like to ask you to employ during the winter months, if possible, as much extra help as you can."

August Showed Decline In Trade

Exports of Agricultural Products Decrease Ten Million Dollars.

Ottawa.—A sharp decline in Canadian trade for the month of August, 1921, August 1920, was recorded in the summary of Canadian trade issued by the department of customs. Total Canadian trade for August, 1921, amounted to \$127,510,299, as compared with \$238,085,409, for August, 1920. For the five months of the fiscal year closing with the end of August, total trade was: 1921, \$602,315,038; 1920, \$1,063,353,170, a reduction of \$461,038,132.

During August, 1921, imports entered for home consumption had a total value of \$65,147,801, as compared with \$124,318,014, a reduction of \$59,170,213. For the five months ending August 31, the total merchandise entered for consumption, was valued at \$319,009,765, as compared with \$597,890,603 in 1920. In August, 1920, domestic merchandise export had a total value of \$112,278,064, as compared with \$61,485,993 for August, 1921.
